EXCEEDING ALL EXPECTATIONS

Our product offering provides exceptional value with a full line of Universal Tips, LTS style tips for Rainin LTS™ pipettes and other specialty tips.

Available Packaging

Universal fitting tips

LTS Tips for Rainin LTS™ pipettes

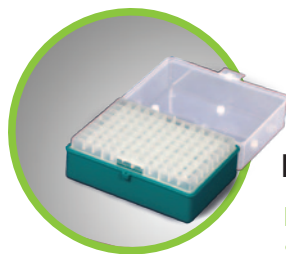

Specialty Tips for Matrix, Biohit

Macro 5ml and 10ML tips

FILTERED

High Density ZAP™ Filters to guarantee maximum protection and prevent contamination

RACKED

Racked tips are packaged in sturdy anti-wobble racks

RELOADS

Eco friendly Eclipse packaging is made from biodegradable resins

BULK

Standard Bulk in double thick polyethylene bags

Pipette.com is proud to offer high quality advanced Pipette.com brand tips. After calibrating and selling pipettes for over 16 years, we know a good tip when we see one. We took our time producing Pipette.com line of tips making sure they are able to exceed all your expectations for a quality disposable to enhance your research activities.

Our American Made tips are molded with a high quality non-cytotoxic medical grade 100% virgin polypropylene in ISO & FDA Certified facility. They are manufactured under the highest quality control standards in the industry with complete traceability and hourly QC checks. All tips are checked for fit, function, reproducibility and certified FREE of RNase/DNase, Pyrogen/Endotoxins, Bioburden and PCR inhibitors. Packaging is printed with soy inks to eliminate heavy metals and cartons are made from 84% post consumer newspaper. Sterile products are ISO 11137 certified and approved for in Diagnostics and GMP Labs. All tips have a wide seal area to reduce mounting force allowing tips to seal on worn out pipettor shafts.

ZAP™ Premier Aerosol Filter Pipette Tips

Take advantage of unsurpassed quality & purity of our precise filter tips. Molded with medical grade plastic, incorporating a robotically inserted 10 μm filter, autoclavable to 121°C and certified to be free of RNase/DNase contamination, Human DNA, Protease and certified non-pyrogenic our ZAP™ filter tips provide complete protection from sample carry-over.

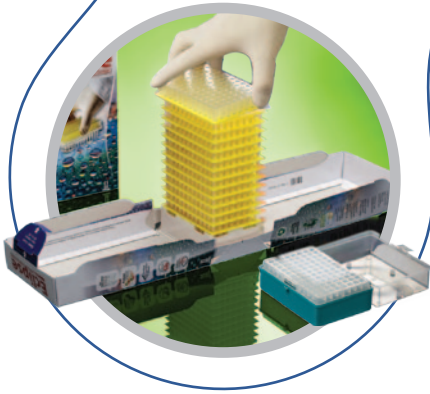

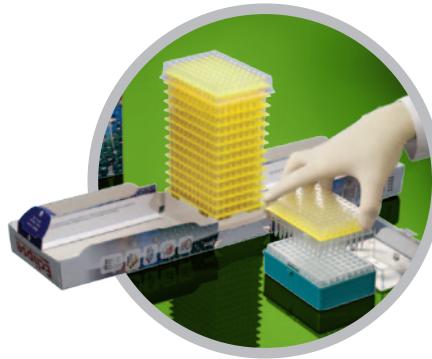

Eclipse™ Reload Systems

Available for Universal and LTS tips

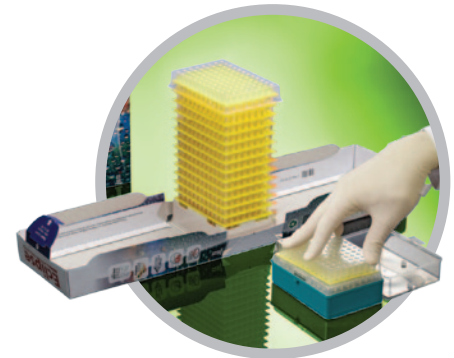

Reloads in 3 Easy Steps

Open Eclipse™ and grasp Snapload™ transfer top. Lift straight up slowly.

Align Snapload™ transfer top over refillable rack and place onto rack.

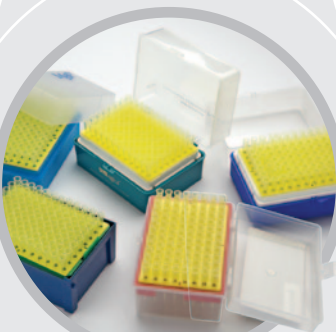

Push down onto Snapload™ transfer top to release refill plate. Return Snapload™ top to Eclipse™ refill stack.

ANTI-WOBBLE RACK

Robust autoclavable hinged rack design for worry free pipetting

REFILLS MANY RACKS

Reloads not only original but also many most popular brands of pipette tip racks

Save with the ultimate Green solution vs competition
